MEDICARE MODERNIZATION ACT (MMA) STATE FILE SPECIFICATIONS AND DATA DICTIONARY

JUNE, 2006

Technical Instructions for Submitting State Data for Medicare Modernization Act (MMA) Provisions

State Monthly MMA File Submission Requirements

CMS data collection needs from the states for MMA implementation will be met by a single monthly file submittal. This file will address the following program needs:

Dual Eligible Enrollment

The file will include all Medicare/Medicaid dual eligibles in the state (full benefit as well as QMB, SLMB, and QI), and will allow CMS to establish the low-income-subsidy status of dual eligibles, and to perform auto-assignment of individuals to Medicare Part D plans. THIS FILE WILL ALSO BE MODIFIED, EFFECTIVE AUGUST 2006, TO INCLUDE INDIVIDUALS IN STATE MEDICAID PROGRAMS WHO ARE NOT KNOWN TO BE <u>FULL DUAL ELIGIBLES</u>, BUT ARE MEDICAID ELIGIBLES APPROACHING AN AGE OR DISABILITY STATUS THAT IS LIKELY TO LEAD TO A FUTURE DETERMINATION OF FULL DUAL ELIGIBILITY.

Phased Down State Calculation

The file will be used to count the number of enrollees for the phased-down state contribution payment.

State Applications

The file will also include records for those individuals for whom the state has made an enrollment determination for the Part D low income subsidy, and is used to convey information on that subsidy determination to CMS. This file must include a record for each Medicare Part D low income subsidy application processed by the state. For states that have no low income subsidy applications processed for the month, the file will include no records with the application fields populated.

This specification document defines the process for this file submittal process in the following sections:

- 1. State Enrollment File Specifications
- 2. Enrollment Return File Specifications

The monthly State Enrollment File will be transferred using Connect:Direct electronic file transfer. This file transfer medium and naming convention is the same as that used for the Medicare Drug Card File transfer. The Enrollment Return File from CMS will be transferred to the State using the same Connect:Direct medium.

Refer technical support questions regarding file specifications or the submittal process to our technical assistance mailbox at:

StateMMAdatafeed@cms.hhs.gov

File transmission issues should also be sent to MBDUser@cms.hhs.gov and called to 1 800-924-4736

SECTION 1 – State Enrollment File

This file must include a person-month record for each Medicare/Medicaid dual eligible actively enrolled in the state Medicaid program for the reporting month. This includes those eligible for Medicare and comprehensive Medicaid benefits (whether eligible through the state plan or a section 1115 demonstration), as well as those for whom the State pays Medicare cost sharing (QMB, SLMB, and QI). The file will also include a record for each individual for whom the state has made an eligibility determination for Medicare Part D low income subsidy. Effective August, 2006, this file will also include records for individuals not yet known to be full dual eligibles, but who are approaching an age or disability status that is likely to lead to a future determination of full dual eligibility (see section on Prospective Dual Eligibles). The Record Identifier field in the detail record will identify if the record is an enrollment detail record ("DET") for a known dual eligible ("DET"), a prospective full dual ("PRO") or a low-income subsidy determination ("LIS") record. Medically-needy and other spend-down individuals who have not met their incurred liability for the month and are in inactive enrollment status for the reporting month are not to be included.

Note that the data fields populated for this file will differ for records representing dual eligible enrollment and low income subsidy application determinations. The application determination data fields at the end of this record will be filled with a default value for the dual eligible enrollment records, as specified in the detailed field specifications.

Prospective Full Dual Eligibles

One of the concerns related to the monthly MMA reporting cycle is the effect on Medicaidonly individuals who transition to dual eligible status and the difficulty in ensuring a seamless transition in drug coverage. Effective August, 2006 States are to include individuals on the monthly file who may not be known full dual eligibles, but are:

- Medicaid eligibles age 64 and 7 months or older in the reporting month., or
- likely to reach the end of their Medicare 24-month disability waiting period. There are different options for identifying these individuals:
 - o Limit to Medicaid disabled between 21-64
 - Use CMS' "finder file monthly batch file process," which provides information related to prospective Medicare eligibility
 - Match to Title II (which includes SSDI cash benefits) data sent separately by SSA to states. [Individuals who qualify for Medicare based on disability have a 24-month waiting period for Medicare benefits, but only a five-month waiting period for SSDI cash benefits.]

Only submit prospective records for individuals with full Medicaid benefits; i.e., individuals who, if they have Medicare coverage, would be FULL dual eligibles. DO not include individuals who would only represent PARTIAL dual eligibles; i.e., QMB-only, SLMB-only, or QI s. In the DUAL STATUS CODE field in the PRO record, include a dual eligible code for full dual eligible status which best describes the dual status assuming that individual is Medicare eligible; i.e., codes 02-QMB plus, 04-SLMB plus, or 08-Other.

CMS 4 06/20/2006

These records are reported on the file with a Record Identifier code of "PRO" (for prospective dual eligible) and are REPORTED ONLY BASED ON CURRENT MONTH ELIGIBILITY (i.e.; Do not include retroactive or prospective eligibility months). Based on this coding, these records will be subjected to special processing. This processing will bypass counting for the phased-down State contribution but will allow us to prospectively auto-enroll these individuals and to establish an appropriate Part D low-income subsidy level. These records will also be excluded from the file acceptance threshold for a 90-percent Medicare match rate.

The information on Medicare status (for Medicare Parts A, B, and D) will be returned to the State in the normal response file format. For records which do not match Medicare records, the Medicare enrollment information will be blank. For records having current Medicare enrollment all available enrollment information will be returned on the response file, including any prospective enrollment dates derived from the SSA prospective enrollment information. Submittal of monthly records for these individuals in subsequent months will allow us to return the updated plan enrollment and subsidy information to the State on subsequent return files. NOTE that Medicare enrollment systems can only return auto-enrollment information for prospective periods two months prior to the enrollment effective date.

Once an individual is identified as a prospective full dual, the person should be submitted with a Record Identifier of "DET" in the first month Medicare eligibility is effective. If an individual is identified on the response file as having current or retroactive Medicare coverage, submit retroactive "DET" records covering the missed months of dual eligibility status. Full duals submitted as "DET" records should not be submitted as "PRO" records for the same eligibility month.

File Timing and Content

Each month's enrollment file is created no earlier than the 15th and received at CMS between the 15th and the 25th of the enrollment month. HOWEVER, CMS WILL CONTINUE TO ACCEPT FILES RECEIVED BY THE END OF THE ENROLLMENT MONTH. RECEIPT BY THE 25TH OF EACH MONTH IS STRONGLY RECOMMENDED TO ALLOW FOR RESUBMITTAL OF FILES THAT HAVE TRANSMISSION OR SPECIFICATION ISSUES.

This monthly file submittal will include all enrollment accretions and updates to state enrollment through the file creation date. The monthly file submittal will also include all state applications for Part D enrollment processed through the file creation date. Any accretions or updates after the creation date for the last accepted state file will be included in the subsequent month's file submittal.

Once a file has been accepted, any subsequent submission in the same month will be rejected. Replacement submittals of files that are rejected based on data quality validation must be received by CMS by the last day of the month. If no file is successfully submitted for the month, CMS will project enrollment from the prior month's file and apply retroactive updates based on subsequent months' submittals for the purpose of the phasedown calculation.

CMS 5 06/20/2006

This file will include one record for each actively enrolled (or potential prospective) dual eligible for the current reporting month. Each month's submittal is a complete monthly dual eligible enrollment file; i.e., NOT a file including only file accretions and deletions. Additionally, the file will include a full person-month record to report information on changes in the circumstances for individuals that were effective in a prior month. These records are referred to as "retroactive" records and will be identified in the monthly file by the effective month and year to which the retroactive record data are to be applied. Illustrative examples of possible situations that would lead to retroactive changes include:

- 1. an individual not previously reported who was determined by the state to be retroactively eligible three months prior to the reporting month,
- 2. an individual having a change in dual status code two months prior to the reporting month, but for whom the state was not aware of the change until the reporting month.
- 3. an individual who was previously reported eligible who is deceased or ineligible for another reason.

In each of these cases, the state file will include a complete person-month record for that individual for the current month, and a second (or more, as needed) record providing a replacement record for the effective month and year of the change. For example, in the April 2006 reporting month file due by April 30, a dual eligible that became retroactively eligible in January 2006 would have to have a full, complete record for each month of eligibility through the reporting month i.e., 4 records (January-April 2006). Since this is a replacement record, the record will include data in all required fields; not just those fields that have changed. A person who was reported eligible for March but was discovered in April to be deceased during the full month of March would have a change record for March showing an eligibility status of ineligible (coded value of "N") for the March enrollment month.

CMS has requested that no retroactive record before June 2005 be submitted.

Selection Criteria for the Reporting Necessary for the State Phasedown Contribution Calculation

The Enrollment File will include all dual eligibles including full-benefit dual eligibles who are eligible for comprehensive benefits under the state plan or section 1115 demonstration, and those dual eligibles for which the state is providing only Medicare premium or limited coinsurance or deductible payments. One of the purposes for which the state's monthly MMA file submission will be used is to calculate the state's phasedown contribution payment. The phasedown process requires a monthly count of all full benefit dual eligibles with active Part D plan enrollment in the month. CMS will make this selection of records using dual eligibility status codes contained in the person-month record to identify all full-benefit dual eligibles (codes 02, 04 and 08 as described in the data dictionary).

SPECIAL USER TIPS

We have received feedback indicating confusion regarding the definition or interpretation of a number of fields, and hope to clarify just a few of the following:

Fields submitted by the State on monthly MMA File:

• BENE BIRTH DT (beneficiary date of birth)

- Key field used to corroborate match between State incoming beneficiary record to CMS' MBD (Master Beneficiary Database), which receives this date from the Social Security Administration's MBR (Master Beneficiary Record)
- MATCHING Criteria is based on the following algorithm:
 - o SSN------5.0 points
 - o BENE CAN Number (1st 9 positions of HIC)-----3.5 points
 - o BENE BIC CODE------ 1.2 points
 - o BENE DOB YY-------3.25 points

 - Note: The first attempt is made with the HICN/DOB/Gender and the second attempt is made with SSN/DOB/Gender.

A score of 12.25 must be attained for a record to be successfully matched.

• INSTITUTIONAL STATUS IND

(Indicator of nursing facility, ICFMR or inpatient psychiatric hospital)

- Values are 'Y' or 'N' A value of 'Y' indicates that the individual was enrolled in a Medicaid paid institution for the full reporting month, or is projected by the state to remain in the institution for the remainder of the month.
- This is a key field in establishing correct beneficiary copays. As operational issues associated with copay have evolved, we now need to ensure that States submit not only accurate current-month institutional status, but **retroactive records** reflecting institutional status changes in prior months. This is necessary to ensure that there is closure on the Part D plan's responsibility for copay amounts during the span of coverage. We ask that States submit retroactive records in their files to cover any unreported past changes in institutional status. For example, if a State has reported an individual for the first time as having institutional status in February, even though the first full month in the institution was January, we need a retroactive enrollment record showing this update

Fields Received by the State on monthly MMA Response File:

• MEDICARE PART D FINDER CODE

(Part D Payment Switch or MARx Payment Switch)

- Value will be '0' for dual eligibles who are enrolled in a Part D plan during eligibility month/year
- Value will be '1' for dual eligibles who are not enrolled in a Part D Plan during eligibility month/year
- As of the March Response Files, rare occurrences have been observed whereby the Finder Code is set to "1" (not enrolled) yet a beneficiary is enrolled in an MA PD (H Plan # can be found as an MA PD on the latest Spreadsheet of Part D plans) receiving Part D benefits- this situation will be corrected promptly and only affects information in the response file, not the beneficiary's actual benefit
- PACE programs and Demonstrations had not been required to submit individual PBP data prior to onset of PART D, thus for beneficiaries enrolled in either type of program, this indicator was erroneously set to a '1', although beneficiary had Part D drug coverage. Situation will be ameliorated as of 03/2006, with PACE and Demonstration programs submitting PART D identifiable PBP information to the MARx enrollment system and allowing correct Part D enrollment information to be shared.

• GROUP HEALTH ORGANIZATION: GHO (10 OCCURRENCES)

(Prior to the onset of Part D benefits, this part of this part of the record only contained Part C MA Organizations

(This area of the response file contains both Medicare Advantage Plans, PACE and Demo Enrollments offering and not offering Part D drug benefits. The information represents the overall contract/organization within which a beneficiary may have a choice of plans (PBPs). If a rollover from a non drug covering plan into one that did occurs, the enrollment effective date of the GHO/GHP would not change but the enrollment periods of the effected PBPs would be updated)

- The first occurrence is the active (current or future) or most recent Medicare Group Health Organization coverage (i.e. plan enrollment). Presently, this section is populated with Medicare Part C and Medicare Part D Organizations enrollments. The organizations can be distinguished by the first position of 'BENE GHO CNTRCT NUM':
 - o H# is for local MA and MA-PDs; PACE, Cost Plans, and Demos
 - S# is for STAND ALONE PDP'S
 - o R# is for Regional MA and MA-PDs

- o [9 in the first position may denote a Demo Plan; or a Chronic Care Improvement Pilot]
- o E# -- Starting with contract year 2007, a contract number starting with E indicates an employer sponsored prescription drug plan.

• MBD PLAN BENEFIT PACKAGE ELECTION (10 OCCURRENCES)

(This area of the response file describes the various PBP (plan) enrollments within the given GHO periods mentioned above)

- The most active plan enrollment will reside in occurrence 1, followed by historical enrollments.
- Presently, this section is populated with Medicare Part C offering no drug overage as well as offering drug coverage and Part D standalone plans
- It is possible for a beneficiary to have two open enrollment periods, one signifying a managed care plan offering no drug coverage and a PDP standalone. In that case, the GHP contract numbers will be different.
- Updated list of values for the

MBD PBP CVRG TYPE CD:

NF=pay bill option was not found for the contract

3 = CCP - COORDINATED CARE PLAN

5 = PFFS - PRIVATE FEE FOR SERVICE

6 = PACE - PACE PGM OF ALL INCLSVE CARE FOR THE ELDERLY

8 = DEMO - DEMONSTRATION 9 = FFS - FEE FOR SERVICE

10 = Cost/HCPP -COST/HEALTH CARE PREPAYMENT PLAN

11=PDP - Part D Drug Plan ELECTION

• PART D PLAN BENEFIT PACKAGE (10 Occurrences)

(This portion of the record will list the Part D Plans which also trigger the MEDICARE PART D FINDER CODE to reflect a '0', denoting "Part D Enrollment found"

(This area of the response file describes the various PBP (plan) enrollments within the given PDP only periods)

- The most active plan enrollment will reside in occurrence 1, followed by historical enrollments.
- Presently, this section is populated with Medicare Part C offering drug coverage as well as Part D standalone plans
- It is possible for a beneficiary to have two open enrollment periods, one signifying a managed care plan offering no drug coverage and a PDP standalone. In that case, the GHP contract numbers will be different.
- Updated list of values coverage type code:

-Values for Enrollment Type Code:

- **A** Beneficiary was auto-enrolled thru CMS (full duals)
- **B** Beneficiary elected plan (overrides auto enrolled plan)
- C Facilitated enrollment: CMS facilitates enrollment of partial duals

into a PDP (eff. 3/2006)

D - System (plan's) generated enrollment: the beneficiary is in a plan and either the contract or PBP # is changing and they are rolled over automatically into the new number. This usually occurs at the end of the calendar year (which coincides with contract year), when contracts/plans may transition to new numbers.

State Enrollment Record Data Element Specifications

DATA ELEMENT NAME	SPECIFICATIONS
RECORD IDENT CODE	Identifies record transaction type. Code as "DET" for an enrollment detail record, "PRO" for a prospective Dual Eligible records, and "LIS" is for a low-income subsidy determination.
	Each record type requires completion of different fields. Whether a field is required for each record type is indicated in the Record-Type = DET or LIS indication in the field specifications. PRO records require the same fields as DET records. For fields not applicable for the record type specified, code the field with the appropriate default or unknown value (e.g., "9" fill)
ELIGIBILITY MONTH/YEAR	RECORD TYPE - DET
	Format :MMCCYY Calendar Month/Year Code for applicable Medicaid eligibility (e.g.012006). Valid Month Values: 01 - 12 (e.g. January=01, December=12.) OR 999999 for a LIS record
	For retroactive enrollment records use effective month of the changes for each record. Retroactive changes must be submitted to reflect prior-month changes in one or more of the following fields: - ELIGIBILITY STATUS - HIC/RRB - HIC-RRB IND - SOCIAL SECURITY NUM - SEX
	- DATE OF BIRTH - DUAL STATUS CODE
	- FPL % IND - INSTITUTIONAL STATUS IND Retro active records must include replacement values for ALL fields for that record; NOT just the field(s) that have changed
ELIGIBILITY STATUS	RECORD TYPE - DET Indicator of beneficiary's Medicaid eligibility for that person-month - Valid values "Y" (yes) or "N" (no) or "9" for a LIS record
HIC/RRB	RECORD TYPE - DET and LIS Either the Health Insurance Claim Number (HIC) or the Railroad Retirement Board Number (RRB),

DRUG COVERAGE IND	or below 100% FPL, 2=above 100% FPL. FPL is determined using the individual state's income rules. If unknown = 9. Include income based on the eligibility intake system, but do not derive this field from the Dual Status Code. If it is necessary to replace unknown FPL % IND values, CMS will derive the value using consistent rules. RECORD TYPE - DET
	This field is not used by CMS. Effective January 2006, code this field as 9. For months prior to January 2006 the values submitted were: 0=no drug coverage by Medicaid; 1= Medicaid drug coverage. If unknown = 9.
INSTITUTIONAL STATUS IND	RECORD TYPE - DET Indicator of NURSING FACILITY, INTERMEDIATE CARE FACILITY/MENTALLY RETARDED or INPATIENT PSYCHIATRIC HOSPITAL: Values "Y" or "N". If unknown = "9". Code this field as "Y" (yes) only when the individual is institutionalized for the entire span of eligibility for the month.
LOW-INCOME SUBSIDY DETERMINATION HISTORY SECTION	THE FOLLOWING FIELDS RELATE TO THE LOW INCOME SUBSIDY DETERMINATIONS. FOR RECORDS THAT ARE DUAL ENROLLMENT RECORDS (DET), ALL THE FOLLOWING FIELDS SHOULD BE DEFAULTED TO 9-FILLED VALUES
PART D SUBSIDY APPLICATION APPROVAL CODE	RECORD TYPE - LIS Identifies whether application was approved or not. Approved code values Y=yes, N=no , N/A=9
PART D SUBSIDY APPROVED/DISAPPROVED DATE	RECORD TYPE - LIS Approved date MMDDCCYY. N/A='99999999' if unknown.
PART D SUBSIDY START DATE	RECORD TYPE - LIS Subsidy Start Date MMDDCCYY. N/A= `99999999'. May not be earlier than 01/01/2006. Must be first day of the month in which application received by state.

CMS 18 06/20/2006

PART D % OF FPL	RECORD TYPE - LIS
	For those individuals who apply for the low income subsidy, identify the specific percent of Federal Poverty Level, as defined by Federal LIS income determination policy. Do not fill this out for those individuals who receive any Medicaid benefits, including payment of Medicare cost-sharing obligations. N/A='999'.
PART D SUBSIDY LEVEL	RECORD TYPE - LIS Identifies portion of Part D premium subsidized, based on sliding scale linked to %FPL. If person is under 135% FPL, enter 100. If person is 136-140% FPL, enter 075. If person is 141-145% FPL, enter 050. If person is 146-149% FPL, enter 025. If person has 150% FPL, enter 000. N/A='999'.
INCOME USED FOR DETERMINATION	RECORD TYPE - LIS Income Used Indicator 1=Individual, 2=Couple N/A='9'
RESOURCE LEVEL	RECORD TYPE - LIS Resource Level 1=over limit, 2=under limit N/A='9'.
BASIS OF PART D SUBSIDY DENIAL	RECORD TYPE - LIS Denial codes 1=NAB (Not enrolled in Medicare Part A or B), 2=NUS (Does not reside in the USA), 3=FTC (Failure to Cooperate), 4=RES (Resources too High), 5=INC (Income too High). 9 = N/A
RESULT OF AN APPEAL	RECORD TYPE - LIS Appeal Result Y=yes, N=no (Only populated if appeal is filed). N/A='9'.
CHANGE TO PREVIOUS DETERMINATION	RECORD TYPE - LIS Change to Previous Determination Indicator Y=yes, N=no. Enter Y if this record changes a determination sent in a previous transmission. Default is N. N/A='9'.

Section 2. Enrollment Return File Specifications

This file will be automatically returned to the state through the Connect:Direct file transfer process upon the successful processing of a State Enrollment File. There may be a delay in sending the response file based upon other scheduling issues.

The return data set name will be the same data set name that was used to return the Drug Card Return File, unless the state notifies CMS of an alternative name. This will ensure that CMS returns a file that complies with state system data set naming conventions. States that prefer to differentiate by the use of a different data set name must provide that name to CMS at least 2 weeks prior to Enrollment File submittal. Please forward requests for data set name changes to the following e-mail address and include "Request for MMA Dataset Name Change" in your Subject Line:

StateMMAdatafeed@cms.hhs.gov

Note that this file will have a much longer record length than the return file for the Drug Card File. The content of this file will include the following:

- 1. Header Record with identifying information, record count summaries, and a copy of the incoming header record
- 2. Detail Record
 - a. Copy of the incoming state detail record
 - b. Series of edit error return codes
 - c. Large section of data from the Medicare Beneficiary Database including enrollment and plan information
- 3. File summary including record validation and matching outcomes
- 4. Summary enrollment count record by month for each month of enrollment information on the incoming file, and
- 5. Trailer Record with identifying information and a copy of the incoming trailer record.

Each Section is identified by a Record-Identifier code in the first three positions of the record. The physical record layouts and field descriptions for these sections are provided below.

*******	ORIGINAL RECORD SUBMITTED BY STATE
RECORD IDENT CODE	Identifies record transaction type. Code as "DET" for an enrollment detail record, "PRO" for a prospective Dual Eligible records, and "LIS" is for a low-income subsidy determination.
	Each record type requires completion of different fields. Whether a field is required for each record type is indicated in the Record-Type = DET or LIS indication in the field specifications. PRO records require the same fields as DET records. For fields not applicable for the record type specified, code the field with the appropriate default or unknown value (e.g., "9" fill)
	Essential field for detail record Validity (See RECORD IDENTIFIER ERC)
ELIGIBILITY	Applicable to RECORD TYPE - DET
MONTH/YEAR	Format :MMCCYY Calendar Month/Year Code for applicable Medicaid eligibility (e.g.012006). Valid Month Values: 01 - 12 (e.g. January=01, December=12.) OR 999999 for a LIS record
	For retroactive records use effective month of the changes for each record. Retroactive changes must be submitted to reflect priormonth changes in the following fields: - ELIGIBILITY STATUS - HIC/RRB - HIC-RRB IND
	- SOCIAL SECURITY NUM - SEX
	- DATE OF BIRTH
	- DUAL STATUS CODE - FPL % IND
	- FPL % IND - INSTITUTIONAL STATUS IND Retro active records must include replacement values for ALL fields for that record, NOT just the field(s) that have changed.
	Essential field for DET detail record Validity (See ELIGIBILITY MONTH/YEAR ERC)
ELIGIBILITY STATUS	Applicable to RECORD TYPE - DET Indicator of beneficiary's Medicaid eligibility for that person-month - Valid values "Y" (yes) or "N" (no) or 9 for a LIS record 'N' should not be submitted for current month dual eligibles

	Essential field for DET detail record Validity (See ELIGIBILITY STATUS ERC)
HIC/RRB	Applicable to RECORD TYPE - DET and LIS
	Either the Health Insurance Claim Number (HIC) or the Railroad Retirement Board Number (RRB), whichever the state has active and available for the beneficiary. (NOTE: Alphanumeric Field - LEFT JUSTIFIED)
	Critical field for detail record Validity (See HIC ERC)
HIC-RRB IND	Applicable to RECORD TYPE - DET and LIS
	Indicator for HIC or RRB - Valid Values: "R" for RRB and "H" for HIC; Indicates the type of value populating the HIC field above.
